ONE YEAR \$2.00 SINGLE COPY 5 CENTS

ANDOVER, MASSACHUSETTS, NOVEMBER 1, 1918

VOLUME XXXII NUMBER 3

THEODORE ROOSEVELT SAYS:

Let our people remember that the incoming Congress will deal with the vital questions of reconstruction after the war. The President proposes to let these questions be dealt with by those who control what his personal organ calls the present "slacker Congress". He proposes to put the reconstruction of the country in the hands of these slackers under the guidance of such men as Mr. Kitchin, the present leader of the House, and incidentally one of the anti-war leaders of the House. Surely the country will feel that this work of reconstruction ought to be entrusted to other hands, and that these hands shall be those of the Republican leaders whose vision is for the future and who yet possess practical ability to work for the best interests of the present.

THE CALL TO EVERY AMERICAN

FIRST to win the war and carry true American Democracy to the World. ALWAYS to Uphold American Principles of Government with Presidential Responsibility for Presidential Duty, Congressional Responsibility for Congressional Duty, and Individual Responsibility for Individual Duty. The nation was built upon this foundation—on no other can it be maintained.

This is the issue next Tuesday, with the test based upon the choice made here in Massachusetts as in no other part of the nation. Here was struck the spark from which was blazed to the

world a freeman's independence. Here was born that Democracy in government which the world now bids welcome. Shall the American Fountain become dry and barren, or shall it continue to be the spring from which shall flow in increasing floods, to nourish all lands, the inspiration that comes from a free press for a free people, enfranchised as a right, and taking part in government as an individual duty? For this sort of democracy the Republican party stands today as never before, not for partisan advantage, but as a patriotic duty. With the cheers over victories won each new day of war, are now mingled the call to prepare for the exactions of peace near at hand. The Republican party hears this call and has ready the answer in those policies upon which American prosperity has always been built in days of peace, and in her candidates for high office trained for the tasks ahead by long years of service loyally rendered.

(Continued on Page 4)

CHARLES EVANS HUGHES SAYS:

We are here in this exercise of our right to express our political preferences. And why should we not express them? Have we no interests at stake, no loved ones in the ranks, no hearts responding to the Nation's call, no sacrifices to endure? Is our contribution in lives, in devotion, in fortune, in readiness to serve, so slight that we must forego the privilege of effective representation in the Nation's councils?

We shall support the President as the President, not as the President of a party, not as the President of half the Nation, but as the President of the entire Nation as he acts according to the genius of our institutions, and we shall save him from the lesser dignity and influence of mere party leadership.

TWICE CITED FOR BRAVERY

Two Battles Brothers D. Fine Work Driving Ambulance Under Fire in France

This makes the second time the two brothers, J. Porter Battles and Richard, sons of Mr. and Mrs. Joseph Battles of Wolcott avenue, have been cited for bravery. They are both members of Section 641 of the American Ambulance Service and the first citation was for their brave and excellent work during the battle of St. Quentin. This last citation was received for their distinguished service in the rest struggle at Verdun.

These brothers were both graduated from the Lawrence High School and had been in Denver, Colo., in business together at the time of their enlistment, June, 1917.

Richard is twenty-four years old, two years younger than his brother, and was wounded in the St. Quentin battle a year ago. Porter was severely gassed last March, so that both men have had severe tests to withstand and they have come through them bravely and with honors.

United War Work Campaign Opens November 11 for One Week—Andover Must Raise \$30,000 as Town's Quota

On Monday, November 11, the United War Work Campaign begins in every city and town in the country. Instead of carrying on these drives for the various War Camp Activities separately, this year it has been decided to obtain the money in one big campaign. The sum of \$170,500,000 is to be raised and divided among seven different organizations as follows:—

National War Work Council of the Y.M.C.A., \$100,000,000.
War Work Council of the Y.W.C.A., \$15,000,000.
National Catholic War Council (K. of C.), \$30,000,000.
Jewish Welfare Board, \$3,500,000.
War Camp Community Service, \$15,000,000.
American Library Association, \$3,500,000.
Salvation Army, \$3,500,000.

Frederick H. Jones of Central street is chairman of the local committee and the work of raising this fund is well under way. Rev. Frank R. Shipman, who has charge of the publicity work of the campaign, has written of the first event in Andover which will begin proceedings associated with this big drive. Other writers who are helping in this work in various capacities have also written irresistible appeals.

"You have loaned your money to supply their physical needs.
Now give to maintain the morale that is winning the war!"

Tablet for Local Boys Who Have Died

A week from tomorrow a tablet is to be unveiled at Memorial Hall for those of our local boys who have died in the service of the Great War. The full program for this memorial will be given in next week's Townsman. If the weather permits, the unveiling, and the addresses in connection with it, will take place in the open air. Appropriate addresses will be made by Rev. Mr. Wilson (three members of whose parish have won the gold star), Father, Nugent, and Principal Stearns. Euring the unveiling of the monument a squad will fire a salute, and when the wreath is placed, three volleys will be fired, followed by the sounding of taps.

This solemn ceremony will be the first event in Andover proceedings connected with the effort to raise \$3,000 locally for the United War Work Societies. The second event will take place in the town hall, Sunday night.

SCENE FROM
"THE MANXMAN"

TREMONT

David Belasco's wonderfully successful
production, "Tiger Rose", opens at
the Tremont theatre Monday, November
4, for a limited engagement. This
absorbing tale of love and adventure
which fascinated the New York public
for one whole year, comes to Boston
with the original cast and identical
production intact. "Tiger Rose" is
from the pen of Willard Mack, one of
America's newer leading playwrights.

The author is said to have
written a play of thrills and romances in
which the central figures are a French-
Canadian girl and a young American
engineer, who are surrounded by typical
and well-drawn characters.

"Tiger Rose" is the name given to the
girl, and Lenore Ulric, who plays the
part, created a sensation in New York
where the critics all agreed with Mr.
Belasco in his curtain speech on the
opening night at the Lyceum theatre
when he said: "I am very proud of this
little lady."

Aside from the great charm of the love
story there is also the picturesque pro-
duction of the big, throbbing Canadian
melodrama. David Belasco has made
no more beautiful production in his
entire career than he has accomplished
in making the stage a scene of illusion
comparable to nature herself. His
pictorial skill is concentrated on two
settings which suffice for the purposes of
the play—the factor's home at a
Hudson Bay post and a deserted cabin.
They are elaborate with a beauty which
New York critics declared "makes them
masterpieces of stage composition."
He also unchains the lightning in a rain-
storm and this is followed by a study
of sky-larks at daybreak that make the
last act scene beautiful.

The cast which Mr. Belasco sends to
Boston embraces a number of distin-
guished players, including Wm. Court-
leigh, Bernard McEwen, Thomas Find-
lay, Armand F. Cortes, Edwin Holt,
Calvin Thomas, Fuller Melish, Arthur
J. Wood, and Jean Ferrell. There will
be matinees of "Tiger Rose" on Wed-
nesday and Saturday. Orders via mail
will receive prompt attention.

SHUBERT

The following are some of the com-
ments of the New York press on
"Business Before Pleasure", the great
Eltinge Theatre success, which A. H.
Woods will present at the Shubert
Theatre on Monday next, for a
limited engagement:

"Business Before Pleasure" is funnier
than "Potash and Perlmutter."—N. Y.
World.

"There were so many laughs that
gradually one grew tired even of the
laughter. I can recall nothing that has
evoked such continuous mirth in a long
time."—Alan Dale, N. Y. American.

"A play that contained only a small
part of the humor of 'Business Before
Pleasure' could be only a blessing to the
community."—N. Y. Sun.

"Business Before Pleasure" is con-
vincingly funny."—N. Y. Evening World
"Business Before Pleasure" is the
third and latest of the famous Potash
and Perlmutter comedies, revealing the
erstwhile cloak and suit partners in a
new environment as film magnates. It

"The Manx-Man," George Loane

Tucker's film version of Hall Caine's
novel, produced by the Manx-Man
Company, Inc., of which Henry J. Brock
is president, will be shown at the
Colonial theatre Wednesday, November
6. The story with which the producers
have to deal is not a film "spectacle",
not a veritable extravaganza of scene
after scene of "stunts", but a narrative
that is sympathetic and appealing,
simple and finely human. It wins
through the call it makes upon the
humanities, not to the sense of wonder;
to sympathy, not to the desire for the
startling or the merely stupendous.
This is not to say that the screen version
of Hall Caine's novel runs along on any
level of the commonplace. It is imbued
with intensive interest from the first
introduction of those so Fate-surrounded
and Destiny-moulded characters; its
people live before us till they become not
shadows on a screen but veritable
friends; there is thrill upon thrill, and
finally a climax that leaves the spectator
gasping but sends him home aglow with
the sense of the high character of the
art that the screen has at last been
made to show.

Error

By error it has been inserted in last
week's Townsman that the regular
program at the Colonial theatre on
Tuesday, November 5, will commence
at 7.45. Take notice that the show
starts on that day as usual.

Soldiers' Christmas Parcels

The soldiers' Christmas Labels are not furnished by the Red Cross. The War Department gave them to the soldiers abroad. Each soldier sends his own label to his family, if he wishes a Christmas package. He cannot receive a parcel unless he has sent his label. The family representative must bring the soldier's label to the Red Cross quarters in order to obtain a carton or package-case.

These cartons have arrived and may be obtained of Mr. George Dick at the Board of Health Room, Town House, on Tuesdays. He may be found at other times at the Fire Station.

In Ballardvale, cartons may be obtained of Mr. Roy M. Haynes. In West Parish they may be obtained of Mr. Frank H. Hardy.

Parcels must be brought for inspection of contents to Red Cross headquarters in the Food Conservation Rooms (next to the postoffice) from November 11 to 15, between 2 and 4 o'clock and 7 and 8 o'clock p.m. The postmaster and his committee will inspect all parcels before they can be mailed.

PHILLIPS ACADEMY NOTES

Trustees' Meeting Held. Alumnus Cited for Bravery. Two Men Leave School. Saturday's Victory

A Board of Trustees meeting was held last Monday at which Alfred L. Ripley was reelected president of the Board; James C. Sawyer, treasurer, and Alfred E. Stearns, clerk. This meeting had been postponed from the usual time of the fall meeting because so many of the thirteen members were engaged in war work.

The regular monthly meeting of the executive committee was also held this week at which time all of the seven members were reelected.

This morning a picture of the school was taken in front of the Administration Building.

Major Henry W. Hobson of the class of 1911 was cited for bravery September 12. He belongs to the 256th Infantry and has received the distinguished service cross for extraordinary heroism in action near St. Mihiel in France. "Within ten minutes of the drive he was twice wounded, once in the shoulder by a machine gun bullet, and once in the leg by shrapnel, but he continued to accompany and direct his command through the day."

William J. Murray, known as "Bill" Murray, and a fine athlete while at school, has written a very interesting account of the sinking of the U.S.S. San Diego by a submarine. He was on the cruiser at this time and lived through a thrilling experience. He was of the class of 1914.

Lieut. W. E. D. Stokes, a former student, made a short visit at the school last week. He is in the U. S. Navy and is at the torpedo station in Newport, R. I.

At the football game on Brothers Field last Saturday, Coach Frank M. Benton used twenty-eight Phillips Andover men against a team from the U.S.S. Fredericks of the Portsmouth Navy Yard. The score was 51 to 0 in favor of Andover, and there was little excitement, due to the ease with which the home team outplayed and defeated the visitors. Captain Adams scored twice, while Dann crossed the goal line three times. The lineup was:—

George H. Hewett of the class of 1919, and Harrison Eddy of the class of 1920, have enlisted in the Student Army Training Corps at Dartmouth College, and left town last Thursday. Hewett entered Andover in 1916. In 1917 he was a member of his class wrestling team, secretary-treasurer of his class in the spring term, and assistant manager of football in 1917. This year he was manager of the football team and was a member of the Student Council and the Advisory Board.

Eddy was president of his class last year and was colonel of the school regiment this year.

Andover A. A. Wins from Hurleys

The second game of the season which was played Saturday on the playground by the A. A. football team against the Hurley A. A. of South Lawrence, resulted in a fine victory for the home team. The score, which was 6 to 0, was made in the third quarter when Payne, the quarterback, ran 85 yards for a touchdown. The teams were so evenly matched that it was an interesting game to watch. The summary follows:—

Good Shooting

Sergeant Bradford of Company H, the local State Guard Company, qualified as an expert rifleman, Wednesday, at Camp Plunkett.

Sergeant Bradford made rather a remarkable record in that he fired the Marksman, Sharpshooter and Expert courses in succession, with no practice shots in between, qualifying in each the first time up.

A. Wilkinson; secretary, Mrs. Lizzie S. Barnes; A. S. Mrs. Nellie L. Smith; F. S. Miss Merle Wilkinson; T. Thomas Brear; M. Mrs. Mina Kibbee; registrar, Mrs. Benjamin Summers; organist, Miss Clara Moody; E. S. Rev. A. H. Fuller; lodge deputy, George F. Tilton, Jr., of Lowell will install the newly elected officers next Monday evening.

Howard W. Bell to Enter Service

The news of the enlistment of Howard W. Bell, son of Mr. and Mrs. John W. Bell of Salem street, will be of interest to Andover people. The following article was taken from a Utica, N. Y., paper and shows that he has made good in that city. His many friends in this part of the country will also wish him all possible success in his new work.

"Howard W. Bell of 1404 Kenble street, one of the applicants at the local Military Training Camps Association for entrance to Central Officers' Field Artillery Training Camp, Camp Zachary Taylor, Ky., has been accepted and will soon be called to his new duties."

"Mr. Bell has been located in Utica for two years and during that time has held the responsible position of chemist at the Globe Woolen Mills of the American Woolen Company. He came to this city from Andover, Mass., where he was born thirty-three years ago. He received his early education in the public schools and in Phillips Andover Academy, and in 1905 he entered Worcester Polytechnic Institute where he specialized in chemistry. After his graduation in 1909 he entered the employ of the American Woolen Company in their chemical department. While at Worcester he took a prominent part in athletics, playing on both football and baseball teams."

"He is a member of the Alpha Sigma Epsilon fraternity, is a Mason and a member of the Utica Golf and Country Club. Although he has resided in Utica only a short time, Mr. Bell has made a great many friends who will be pleased to hear of his appointment and will wish him all success in the service. His education along chemical lines is a valuable asset to him in the field artillery school. His strength of character and commanding personality are two qualities which are invaluable to a man seeking to obtain a commission in the army. His friends are sure that success will be easily won."

Community Singing

The epidemic has hindered the practice of the community songs for the last four weeks; but they are now to be resumed in various groups. All of the church organizations of the town have been supplied with the pamphlets of popular songs, printed with two verses and a chorus. The Panchard High School also is supplied and it is hoped that hundreds of the young people will soon be ready to sing the popular airs in a public gathering.

An opportunity for getting all voices together in the town hall will come on Sunday evening, November 10, when the Allied War Work Drive will be inaugurated. The first fifteen minutes of the meeting will be devoted to popular singing and it is hoped that an enthusiastic community sing may be scored. If any other groups of singers besides the churches and the schools desire to practise the community songs, they may obtain the pamphlets by calling at the Townsman office.

Obituary

JAMES MURPHY

James Murphy of 57 Stevens street died Monday at the base hospital in Lawrence as a result of influenza. He was thirty-two years old and is survived by his wife, Elizabeth, and three little children, Mary, Catherine and Agnes.

The funeral was held Thursday morning at 9 o'clock from St. Augustine's church, and burial was in that cemetery.

WEST PARISH

Mrs. E. W. Boutwell is confined to her home in Boutwell road with a severe bronchial cold.

Mr. and Mrs. James Marshall were week-end guests with the latter's parents, Mr. and Mrs. George D. Ward.

The next meeting of the Red Cross Society of the Osgood District will be held with Mrs. Fred Kress of Lowell street Saturday.

Herbert A. Rose from the training camp at Dartmouth College visited over the week-end with his parents, Mr. and Mrs. J. M. Rose.

Word has been received by Miss Anna Chase of the Pond District from Karl Wallace, who made his home with Miss Chase for a number of years, telling of his safe arrival overseas, and he is happy and well, as mess sergeant in the 326th Infantry in France.

On account of the Red Cross work on hand requiring so many machines, the president of the Ladies' Aid, Mrs. F. H. Hardy, will leave work at the homes of those who can do it, and the regular meeting will be postponed until a later date.

COMPANY H HOME AGAIN

After Ten Days of Guard Duty at Lawrence Base Hospital They Returned Monday

After a most satisfactory ten days' guard duty in Lawrence at the Emory Hill base hospital, the Andover Company returned home Monday at 4 o'clock. Captain Page had called for volunteers a few days before, Friday, October 18, so that several of the men who had responded to that call had been on duty for two weeks.

The Reading Company, under Capt. Frank E. Gray, and a detail of twenty-three men from the Lowell Company, came to be on duty until yesterday when the camp broke up. All those who have been called from their regular affairs of business are today back at work again, and are no longer leading the life of soldiers in khaki.

The reports from the Andover men at camp indicate that utmost efficiency, harmony, and system prevailed; and, during the whole period of time there, no sickness was reported. In fact, everyone seemed to have benefited greatly in his physical condition while there.

Captain Page, Lieutenant Chapin, and, in place of Lieutenant Billington, Lieutenant Merrill of Company L of Methuen, were in charge, and the ease and smoothness with which the camp was run testified to their able management.

Because of the decrease in the number of patients and because of the cold nights, a new cubicle to accommodate twenty-two patients has been built at the Lawrence General Hospital. This means that Camp Emory is now a thing in memory only. But the great place it has filled in the history of this epidemic will never be forgotten. The big undertaking which was so efficiently and successfully managed by the various heads who had charge under Major Durant, the quick response and the indispensable assistance which was given by the Red Cross and by other generous workers, as well as the cheerful performing of the duties imposed on the members of the State Guard, have all shown a splendid patriotic spirit which will never be forgotten. Without the camp hospital there is no doubt but that the epidemic situation in this community would have assumed uncomparable proportions.

Daniel Gillespie Gassed in France

Mrs. Catherine Craig of 5 Brechin Terrace has received a telegram from Canada telling that her son, Daniel Gillespie, of the Canadian Army, has been gassed in France. He is now in the 16th General Hospital at Lepreport, to which place he was taken October 14, to recover from the attack of mustard gas.

Private Gillespie was born in Arbroath, Scotland, twenty-two years ago, but the family moved soon after to Andover where at the time of his enlistment in March, 1918, he had been a truck driver for the Andover Ice Company.

He belongs to the 42nd Highland Regiment, Black Watch, and was sent to France in September.

South Church Notes

The first meeting of the season for the Men's Club was a happy event last Friday evening. The release from the strictures of the epidemic was much appreciated and the vestry was well filled by the members and their invited guests; men and women. Mr. Maxwell, the general secretary of the Malden Y.M.C.A., told many of his personal experiences with the soldiers in France with whom he was billeted during the last year. The inspiration of such services as he provided for the boys in their camps must have been of the lasting quality and justifies the Red Triangle contributions.

The women's sewing department is happy in the gift of another fine sewing machine from the personal property of the late Madame Eliza Barnard, who was for so many years a constant helper in the women's work.

Fr. Nugent. The bride was attired in white satin and carried a bouquet of white chrysanthemums. She was attended by her sister, Antonia, as bridesmaid, and the best man was the bride's brother. The time has come for us to decide whether we are to be a part of the war, or merely on-lookers.

This is OUR war. We should ALL be in it. If we cannot go to the trenches, we can serve at home.

The man, woman or child who is not a part of the war, in the face of the sacrifices of our boys over there, has no right to enjoy the sacred privileges of America—no right to call himself an American! He is an alien, if not in name, at least in spirit.

The money which you invest in War-Savings Stamps buys food and supplies for our boys over there, as well as ammunition. The money that you put into War-Savings Stamps represents that much labor, food and supplies, not used by us, but instead turned over to the Army and Navy. Will you agree to save part of YOURS for your country?

THE APPEAL TO EVERY AMERICAN

(Continued from page 1)

The election next Tuesday can have no result that does not choose men who will support the government of the United States; can have no result that does not endorse American principles; can have no result that does not insist upon winning the war through the force of arms that shall bring unconditional surrender; can have no result in any particular that goes counter to the universal demand of the American people for loyalty and service, without partisan bias and with no thought of partisan profit.

It can, however, have a result in which partisan triumph will mean for the American people, the establishment of governmental policies of tremendous importance after the war. Suggesting these policies and their vital import to Massachusetts because of her peculiar relation to the problem of government on account of her industrial position, Theodore Roosevelt says in reply to a request that he shall come to Massachusetts and address the Republican Club:

ROOSEVELT URGES COOLIDGE AND WEEKS

I wish I could accept your invitation but inasmuch as that is impossible I send you this word of greeting and of hearty hope for and belief in the triumph of the ticket headed by Mr. Coolidge for Governor and Mr. Weeks for Senator. Mr. Coolidge is a high-minded public servant, of the type which Massachusetts has always been honorably anxious to see at the head of the State government; a man who has the forward look and who is anxious to secure genuine social and industrial justice in the only way it can effectively be secured, that is, by basing a jealous insistence upon the rights of all, on the foundation of legislation that will guarantee the welfare of all. As for Senator Weeks, not merely the regard of Massachusetts for her own reputation, but her high interest in the honor and welfare of the nation, will insure her returning him to the Senate. His abilities are such as are peculiarly necessary at this particular crisis. He has stood for the unflinching and efficient prosecution of the war until it can be ended by the unconditional surrender of Germany. His own son is a gallant fighting-man in our gallant fighting army over seas. He will stand as bravely and wisely for the right kind of peace as he has stood for the right kind of war.

Faithfully yours,
THEODORE ROOSEVELT

WHERE NEW ENGLAND MONEY GOES

Certainly these are no times for sectionalism and all that is involved in the relations of one neighborhood within the nation toward another, but with the issue already raised by a Congress for long years hostile to New England, can the people of Massachusetts in this critical time overlook the manner in which the vast sums raised by Liberty Bond sales and other methods of financing have been spent under the Democratic Congress? A review of official records of the expenditures in a single activity, illustrative of all the activities, tells a startling story for Massachusetts voters to consider:

Millions Are Dumped in the South

In passing out the appropriations for army camps and contingents the Democratic administration gave \$190,306,991.34 to sixteen states south of the Mason and Dixon line and only \$200,559,222.01 to all the other states.

The division of the original appropriations by states was as follows:

Alabama	\$61,386,145.36
Arkansas	13,109,572.56
Florida	7,278,201.24
Georgia	28,710,815.85
Kentucky	8,375,239.90
Louisiana	6,210,171.65
Maryland	39,187,141.87
Mississippi	5,514,511.92
New Mexico	4,007,545.86
North Carolina	4,518,761.39
Oklahoma	5,174,616.07
South Carolina	19,045,281.95
Tennessee	76,672,100.00
Texas	32,652,744.11
Virginia and West Virginia	\$176,103,472.61

Total \$190,306,991.34
These original appropriations have recently been increased by over \$105,000,000, making a total of approximately \$600,000,000 that has been or is being spent by the United States on camps, contingents and military plants in the South.

A cantonment was located at Louisville, Ky., at an initial cost of \$8,375,279.

This cantonment was located there in spite of the recommendation of two military commissions to the contrary. Army authorities recommended the use of Fort Benjamin Harrison at Indianapolis, where the government already owned ample ground for a cantonment and where there was in existence quarters large enough to accommodate a vast number of troops. Indianapolis was also admirably adapted for the site of a cantonment by reason of its railroad facilities and a belt line.

Louisville is the home district of Representative Sherley, the Democratic chairman of the House Appropriations Committee. Louisville got the \$8,375,279 cantonment and Indianapolis got a \$582,000 repair depot. On October 1, last, it was announced that Louisville was to get another cantonment, with an initial appropriation of \$20,000,000. This gives Representative Sherley two cantonments in his district involving the expenditure of nearly \$30,000,000 of the government's money.

What rest of the nation got:

California	\$11,980,398.81
Illinois	11,878,150.11
Indiana	582,000.00
Iowa	8,518,975.38
Kansas	11,611,998.31
Massachusetts	11,480,837.87
Michigan	18,165,178.56
Nebraska	549,296.00
New Jersey	51,103,884.79
New York	17,818,965.30
Ohio	36,116,361.04
Pennsylvania	8,893,732.00
Vermont	108,823.13
Washington	8,750,647.68

Total \$200,559,222.01

It will be noted that of the appropriations awarded states north of the Mason and Dixon line, New Jersey obtained over one-fourth of the total.

It is a favorite argument of Southern Democrats, in excusing this discrimination, that the splendid climate of the Southern States accounts for the favoritism shown that section of the country. Unfortunately for this argument, the facts do not sustain it. For example, California's climate is quite as noted for its mildness in winter as is the climate of Alabama. California's climate is far more healthful than Alabama's, the latter being full of malaria.

California received \$11,980,398 in appropriations for army camps and other military works. Alabama received \$61,386,145, or 386,145, or two-fifths as much as the total appropriations given to northern and western states.

California subscribed \$358,191,200 to the Second and Third Liberty Loans, or 21 times what the government spent on camps in California. Alabama subscribed only \$38,795,350 to those two loans, or less than two-thirds as much as the government has spent in that state.

But Alabama is the home of Chairman Dent of the House Committee on Military Affairs.

Do not forget in these last days that when an army was needed, the one man on whom was the greatest responsibility to make this army, certain, i.e., Chairman Dent of the Committee on Military Affairs in the House, fought the bill, and the Republicans led the fight for it. Also, when money was needed to make the army of any value whatsoever, Chairman Kitchin, of the Ways and Means Committee, fought it; he being the man most responsible for its passage, and the Republicans had to lead the fight for it. Without this the army would have been useless. Also Champ Clark, the Speaker, left the Chair and fought the Army Bill.

All these things are known to all, but the attention of all should be called to these facts again now. Remember, too, there is but one way to get rid of the Kitchin coterie control in Congress, and that is to fight for a Republican majority in Congress. Every vote cast for a Republican Congress in the North means a vote against the coterie control.

PATRIOTS WHO PAY

Not the expenditures alone demand consideration at this time. With the whole nation at call; with the South more prosperous through its ability to control the price of cotton at unheard-of figures; with the resultant effects from the cotton used in the garments worn by every man, woman, and child in Massachusetts; what a startling contrast is shown in the manner in which North and South responded to the call for Liberty Loan subscriptions! The official figures show the following:

Contrast in Giving

The average number of subscriptions in proportion to the population in the Southern States were as follows: Alabama, 4.6 per cent; Arkansas, 9.2 per cent; Florida, 8.4 per cent; Georgia, 6.1 per cent; Louisiana, 6.1 per cent; Kentucky, 6.1 per cent; Mississippi, 6.1 per cent; North Carolina, 6.1 per cent; South Carolina, 6.1 per cent; Tennessee, 6.1 per cent; Texas, 6.1 per cent; Virginia, 6.1 per cent; West Virginia, 6.1 per cent.

Meeting of Natural History Society

In the lecture room at Punchard School Tuesday evening the Andover Historical Society held its full meeting. Mrs. Henry C. Various classes were learned of and talked about by the following speakers: "Pappas," Miss Florence I. Abbott; "Winged," M. E. Guttererson; "Bird," Omar P. Chase; "Elastic Seeds," Miss Clara Putnam; "Burrs," Miss Florence Parker.

ALDEN BROOKS CITED

Well-known Journalist Receives the Croix de Guerre with a Silver Star for Rendering Service

"Sous-Lieutenant" Alden Brooks, son of Mr. and Mrs. Edward Brooks of Porter road, has received high honor from France for service rendered through courage and presence of mind under difficult circumstances. The following gives his citation:—
Extract from the Order of Citation No 17:—

General Maurin commanding the Artillery of the Ninth Army, cites by order of the Artillery, of the Ninth Army, the "Sous-Lieutenant Brooks (Alden)" of the third group of the 81st Regiment of Artillery of the Line.

Enlisted in the Foreign Legion and passed into the Artillery, he has rendered, in his group, the greatest service as observer, giving proof, in difficult circumstances, of much courage and remarkable presence of mind.

Detached to the General Staff of the regiment to serve as agent of liaison, with the American Unit, he exerted himself to the utmost. He acquitted himself perfectly during the days of the 15th and 16th of July, 1918, in missions particularly difficult, with which he was charged.

He was given the "Croix de Guerre" (War Cross) with a silver star.

Alden Brooks was graduated from Phillips Academy in 1901, and from Harvard College in 1905, after which he taught for two years at the Annapolis Naval Academy.

When the war broke out he entered the first Ambulance Unit and afterward served as correspondent to the New York Times, publishing a volume of stories called "The Fighting Men".

He was selected to enter the Artillery School at Fontainebleau and, as "Aspirant" in the French Army taught topography at Saumur to American artillery officers.

He joined the Foreign Legion but was transferred as Sous-Lieutenant to Regiment 83, 65th Battery gun long 155, so that since October, 1917, he has been in active service.

Officers Elected at Home for Aged

Frederic S. Boutwell, who resigned as president of the Andover Home for Aged People on Monday evening, has given thirteen years of faithful service to the Home, succeeding the late Joseph A. Smart, and has watched its growth from a vision of what might be, to a reality. He is succeeded by Cecil K. Bancroft, whose father's name stands at the head of the charter members of the corporation formed in 1890. Mr. Boutwell has consented to remain on the board as first vice-president and retains his place on the committee of finance.

The other officers elected follow:—second vice-president, Miss Ella G. Ellis; treasurer, David Shaw; clerk, Mrs. M. S. McCurdy; auditor, George Abbott; managers for three years, Mrs. M. E. Gutterman, Mrs. A. P. Thompson, J. H. Campion, John V. Holt; for two years, Mrs. Joseph W. Smith, Mrs. C. E. Abbott, Miss Emily Carter, George Abbott; for one year, Mrs. Mary E. Jackson, Mrs. M. W. Stackpole, Miss Clara J. Baldwin, J. Duke Smith.

Milk Prices Still Going Up

The New England Milk Producers' Association have issued a statement in regard to the price of milk, and this will be sad news for everybody. But we have to have milk at any price, and like eggs, a glass of milk will now be considered a rare treat.

The producers will get 94 cents per quart delivered at Boston. There will be no discount to dealers for carrying surplus. These figures were announced last Friday by the Regional Milk Commission for New England, a part of the National Food Administration, at the conclusion of lengthy hearings, wherein the cost of production was proven through thousands of sworn statements by actual producers and the costs of distribution by the evidence of dealers.

The New England Milk Producers' Association, which represents the producers in these hearings, has asked the Commission to establish a system of cost accounting to be put in operation on the farms of its members, with a view to determining how, if possible, production costs can be reduced. The scarcity and high price of labor and of grain are driving cows from the farms of New England and even high prices for milk will not hold them if labor and feed are not to be had.

At the Wednesday evening meeting of the Boy Scouts there was no regular business preceding the basketball game and the bowling, because Mr. Carlson was unable to be present. He is their new scoutmaster, taking the place of H. G. Tyer, who has entered active service. Mr. Caduff and Mr. Curtis were also there and it is hoped that the latter will be a second scoutmaster to have charge of Troop 1; Mr. Carlson would then have Troop 2.

The engagement of Miss Charlotte Louise Hill, daughter of Mr. and Mrs. George B. Hill of Lynn, to Frederick Robert Hulme, son of Dr. and Mrs. A. E. Hulme of Main street, was announced last week. Mr. Hulme is a second lieutenant in the army and is stationed at Camp Lee, Va., as assistant adjutant at headquarters. He was graduated in 1914 from Phillips Academy and last June from Harvard College. In the early summer he enrolled in the Officers' Training Corps at Camp Devens, but was soon transferred to Virginia where he received his commission.

"Slacker Records" Week

Andover must do her part in this nation-wide campaign for phonographs and records to send to our soldiers at home, at sea, and on the fighting front. Committees in more than 500 cities and towns, cooperating with local musicians and the general public, are to provide our army and navy with the source of enjoyment and solace which has been called "the fourth essential". Contributors may print with a halpin their name and address on the smooth space in the center of each record, or in case they do not desire to make the gift a personal one, they may indicate in the same way whether the record is intended for the army or navy.

At the public library and at E. E. Gray Company's store on Essex street these "slacker" records may be left. In Boston the records and phonographs may be sent to the Y.M.C.A. supply rooms, 564 Washington street, or to Mrs. George R. Fearing, Jr., Room 340, Little Building, Boylston street.

Don't forget that today and tomorrow are the last two days of the drive and that you have the chance of giving pleasure to some one who is fighting for you.

Give—Give—to the greatest Gift Fund ever raised.

S. Army. He has gained quite a reputation as a specialist in kidney diseases.

Liberty Loan Honor Flag Is Here

Wednesday, Andover's Liberty Loan Honor Flag arrived and it now hangs in the National Bank. This flag is given only to those towns or cities that have over ten per cent of their population subscribers to the Fourth Liberty Loan.

Every morning returns are coming in to Mr. Flagg, the chairman of Andover's Liberty Loan Committee, and he knows of other subscriptions which, although made through other sources, should count for this town but have not yet arrived.

To date the amount credited to Andover is \$958,800 and represents 2844 subscribers, so we may well be proud of our town which went way "over the top".

A Big Team—Lodge & Weeks

Three years ago John F. Fitzgerald threatened to supersede Henry Cabot Lodge as senator for Massachusetts. Is there a red-blooded man in the nation who hasn't thanked God many times that the good sense of Massachusetts said WE NEED LODGE IN THE SENATE?

Today a man less fitted than Fitzgerald in many ways asks to be chosen to succeed John W. Weeks, one of the national figures in war leadership and peace problems. Shall Massachusetts fail to answer this later opportunity to serve the nation which says, with equal emphasis, WE NEED WEEKS IN THE SENATE?

BISHOP. WINGED WARFARE.

ADDRESS AT MEN'S CLUB

H. A. Maxwell, Y.M.C.A. Secretary, Tells of His Work Overseas

At the first meeting of the South Church Men's Club which was held a week ago in the vestry, a large audience had the pleasure of hearing an interesting talk by H. A. Maxwell, general secretary of the Malden Y.M.C.A. He has recently returned from France where he has been with the Y.M.C.A. in the American Expeditionary Forces, and his topic was, "With the First Million in France."

He told of having left Paris the 21st of September, 1917, and of his 155-mile journey to the first place of assignment which was with the American aviators in France. Here, there were about six hundred soldiers, all anxious to get at the large cases of candy, cigarettes, etc., which had to be dumped in the open field because of no canteen accommodations. Finally the major in command gave him the Red Cross hut as his headquarters until provisions could be made for the erection of a Y.M.C.A. hut. He said he had been engaged in Y.M.C.A. work for eighteen years, but that he would not exchange the seventeen years previous work for his year's experience with the soldier boys in France. At this camp he made the acquaintance of the late Lieut. Quentin Roosevelt, son of ex-President Roosevelt, to whose memory he paid a glowing tribute. He said if there was one person the French people respected it was Theodore Roosevelt, who is admired by all France. President Wilson is also respected and liked by France, as well as Thomas Edison. The foremost American of today, however, who was loved and admired by all of France, was General Pershing.

He paid a tribute to the work of "Red" Carter, an Andover boy, son of Rev. Clark Carter, who is in charge of the Y.M.C.A. work in Europe today.

His talk was full of entertaining anecdotes which had helped to make his work over there so varied and satisfying. A large part of this work was religious and he told of the enthusiasm of the troops and the way in which even the "Alabama Wildcatters" responded to the efforts of these Y.M.C.A. workers and enjoyed the various meetings.

In closing, Mr. Maxwell urged everybody to subscribe generously to the United War Work Campaign, saying that people in this country can have no conception of the great work which these various war workers are accomplishing and of the valuable comfort they are bringing to the boys, so far from home.

THE APPEAL TO EVERY AMERICAN

tucky, 7.9 per cent; Louisiana, 7.3 per cent; Mississippi, 5 per cent; North Carolina, 3.3 per cent; South Carolina, 5.3 per cent; Tennessee, 6.5 per cent; Virginia, 7.8 per cent.

The percentage of population in some of the Northern states which subscribed to the Liberty Loan were as follows: California, 25 per cent; Arizona, 20 per cent; Connecticut, 28 per cent; Iowa, 29 per cent; Minnesota, 25 per cent; Montana, 23 per cent; Nevada, 20 per cent; South Dakota, 29 per cent; Rhode Island, 26 per cent.

WHICH SHALL IT BE?

What do the men of Massachusetts need after the end of the war? Their labor protected, or open to the markets of the world? Their living protected, or free to the low-priced products of European countries? Employment in producing American goods for the American market, or idleness so that European goods may have free access to the richest market in the world? A wise development of foreign trade with the cultivation of the fertile fields to the south and the wonderful opportunities in Asiatic countries, or such an economic situation as shall leave undeveloped this opportunity for American products?

If the prosperity suggested on the one hand in these queries is to come, isn't the test as to how it shall come, proven by the record of the Republican party in years past? If the adversity suggested on the other hand is to come, what better guarantee of its sure coming than the record that followed the legislation of 1913 approved by every Democratic congressman and sure to be approved by a Democratic senator (if elected to the next Congress). Read the story as the Herald of yesterday tells it.

No state in the Union has a more tremendous stake than industrial Massachusetts in the after-the-war legislation of the United States. Then as never before will our country need the experience and acumen of its great men of business. We shall be quitting a war of weapons for a war of trade, and on the economic policies of our nation as Washington must shape will hang the very life of Massachusetts manufacturing. Who is the safe champion and leader here—the man who is himself a great Massachusetts man of business, familiar with the conditions and needs of our vital industries, or a man who in his mature years has never been identified with any industry or trade of any kind?

Who knows where Mr. Walsh stands on these problems of the immediate future? Who knows whether he is a free-trader or a protectionist? Who knows whether he favors or is opposed to government monopoly of railroads, telegraphs, telephones, shipbuilding and navigation? Did he ever discuss any of these things when he was Governor of Massachusetts? Did he ever refer to any of them except in the most mellifluous and unintelligible generalities?

But everybody knows where John W. Weeks stands. No citizen of Massachusetts could have any doubt about his action. Year in and year out, through long and distinguished public service in Washington, he has voiced the convictions and defended the welfare of our commonwealth, because he knew what its convictions and its interests were. Massachusetts of recent years has had many Democratic representatives in Washington. Most of them have been abjectly yielding to Southern sectional greed and arrogance—the same arrogance that now threatens to engulf Republican debate until after election in the Senate and the House of Representatives.

Is there anything in ex-Governor Walsh that suggests the possessor of these gigantic qualities in which other Massachusetts Democratic politicians have proved so lacking? Every Massachusetts Democrat in 1913 voted for the Hiram-Underwood-Kitchin tariff law, with all its gross sectional discriminations, under which in the seven months of peace in 1914 much of the machinery of Massachusetts industries was shut down and thousands of Massachusetts workers were without work and wages. "We of the South," Mr. Kitchin said, "intend to ask the New England mills to come down here and put their mills here, or else go out of business." Mr. Walsh if in the Senate would undoubtedly have voted with Mr. Kitchin in the House. He would have yielded with the South. After the war Mr. Kitchin as chairman of ways and means, if the House stays Democratic, will frame and present another tariff law.

Do we want a Senator who would weakly accept it or one who will fight with all the power at his command to help his state and her people?

ANSWER WITH YOUR VOTES

In the light of these facts, and pages more that could be quoted if space would permit, the President calls upon the Republicans of the country to repudiate their representatives in Congress and to make him the sole arbiter of things political and things governmental. What better answer to the appeal than that suggested in the ringing words of the chairman of the Republican National Committee who says:

President Asks Republicans to Surrender

Mr. Wilson forces the Republican party to be down or fight. I say, fight! Answer with your votes!

Mr. Wilson is for unconditional surrender,—yes, for the unconditional surrender to himself of the Republican party, of the country, of the Allies—all

to him, as the sole arbiter and master of the destinies of the world. Do you stand for that? Answer with your votes!

"The war is a Democratic asset," shouted Vice-President Marshall. And they have made every effort to make it so, despite the earnest Republican insistence that we have no contest as to anything that touches the war except that contest as to who best can serve who most can give. Republicans have insisted that with the great war load to haul, both political horses should be harnessed, each striving to see which can pull the harder. Mr. Wilson's appeal is simply the supreme effort of the Democratic high command to capitalize for partisan, political purposes the glorious spirit of patriotism that inspires this country. He now openly speaks as his party has been secretly acting for months. And he changes nothing,—neither the facts, nor the Democratic political methods nor the certainty of Republican success.

This is a call to all loyal Republicans, proud in their patriotism, to stand by their country and their candidates and to let the world know that America spurns autocracy no less at home than abroad, and will uphold her Allies in whatever preparation they may exact for the frightful outrages inflicted upon them by the accursed Huns.

We are fighting in France to make certain forever that men may have the right to govern themselves. Here, where we have that right, we shall exercise it, now and always.

America was created for that very privilege. America will not be denied it now. America will answer with her vote!

IN THE NAME OF PATRIOTISM

No more pitiable exhibition of cheap political bunk was ever made, than that made at the Democratic Convention by Candidate Walsh who attempted to show his patriotism by placing upon the platform at his side a wounded United States soldier, using him as a theme upon which he could pin the badge of unpatriotism upon Senator John W. Weeks. A recent communication to the Boston papers comments upon this incident as follows:

The dragging into the campaign of a wounded United States soldier to give emphasis to the political utterances of David I. Walsh is sharply criticized by George A. Bacon, chairman of the Republican State Committee, who defends the patriotism of Senator John W. Weeks and makes some pointed comments on the failure of Walsh to contribute towards winning the war.

Chairman Bacon also denies that Senator Weeks voted against the soldiers' insurance. "This bill first passed the Senate," says Chairman Bacon. "The amount of insurance per soldier was reduced in the House to \$5000. The bill went back to the Senate, which unanimously voted to make the insurance \$10,000. Senator Weeks was one of the Senators who voted for the bill."

"Senator Weeks favored permitting the wheat growers of the West to fix the price of wheat at \$2.50 a bushel. If the Southern Democrats, who have fixed the price of wheat, wool and copper for the North and West, but, with a tender regard for their own pocketbooks, have failed at any time to control by Government edict the price for cotton, had been willing to fix the price of this great war necessity at any reasonable figure, Senator Weeks and his colleagues would have gladly joined with them in a reduced price for wheat."

"The charge that Senator Weeks is not interested in the soldiers and that the President has had no representative service through him" comes with ill grace from Democratic lips.

"The country has had the greatest 'representative service' from him that any man can give it. His son is fighting with the artillery on the battlefield in France, where he has recently been promoted to the rank of captain for gallantry in action. Senator Weeks is the only one of the six candidates of the Republican and Democratic candidates for high State office who has this representation on the battlefield. Lieutenant Governor Coolidge has two sons under fifteen years of age. Speaker Cox has but recently married. None of Candidate Long's sons is in the military service, although one of them has been deemed so essential to the industries from which his father is making an enormous war profit that he has remained at home to serve his country in his father's shops. Former Congressman O'Neil, candidate for lieutenant-governor, has one son safely ensconced behind a desk in the Quartermaster's Department at Washington.

"Former Governor Walsh, who has registered himself as within the draft age, is unfortunately a bachelor. Consequently, he has been unable to send a representative to the front, while he continues his oratorical efforts to make Massachusetts safe for the Democratic party. He has done the very next best thing, however. While he attacks the loyalty of Senator Weeks, he carries with him a mailed soldier, who has fought, not talked, for the purpose of showing to the electorate what he (Walsh) might have done had he not been too busy with his political engagements. If there is any one class of men in this country to whom can be safely entrusted the adequate protection of the men who are fighting our battles, it is the fathers of the fighting soldiers."

Why shouldn't the chairman of the Republican State Committee have gone farther and definitely said to Candidate Walsh, "Have you even responded to the definite call that has been made? Were you not asked to serve on an unpaid Board at Washington and did you not decline because there was not sufficient pay in it to compensate

you for leaving your lucrative law practice associated with a certain particular interest in the city of Boston?"

MEN TRAINED FOR THE JOB

The stirring issues of the campaign are more directly related to the national problem than to the state, but the voters are not likely to overlook the vital situation related to the election of state officers next Tuesday. Senator Lodge has well said that "Calvin Coolidge is his own platform". The tenets of that platform were set forth in last week's Townsman. The voters of Massachusetts will further emphasize them, from all appearances, by a vote next Tuesday that will register a remarkable majority for the Republican candidate and his associates. These are the days as never before when Massachusetts needs in her service, and as her leaders, men trained for the job and schooled in the intricate details involved. Those who know Lieut.-Governor Coolidge, Speaker Cox, and the other men who make up the Republican Ballot have reason to take great pride that they will meet this vital test.

War and Peace in Congress

Stand with the Country for Victory! That is the challenge flung by the leader of the Democratic party, through his spokesman in the Senate, at the unwavering patriots of America. That is the overwhelming issue. Let the answer be a Republican Congress.

The Congress to be elected on November 5, will not assemble till March 4, 1919, and will continue in existence till March 4, 1921. Long before the latter, and possibly before the former date, the war almost surely will have ended. Even though hostilities should continue for a portion of the time, no question involving partisanship can arise. The course of the nation is fixed and unchangeable. The mighty war machine, thanks to the timely goading of the laggard Administration, is now plunging forward at an unprecedented pace and no branch of the Government can now impede its progress. Even the pacifist Secretary of War is powerless. The only phase of the war with which the new Congress can be concerned is its settlement. As the New York World truly says:

No question of patriotism is involved in this election. No sane man doubts that a Republican Congress will be as patriotic, in the accepted sense of the word, as a Democratic Congress. No sane man doubts that a Republican Congress will be as loyal to the flag, and as eager to win the war as a Democratic Congress.

Apportionment of the burdens through taxation, the authorization of loans, the raising of revenue in all ways and the safeguarding of expenditures will fall to its lot naturally, but these are only problems of peace hugely magnified as aftermath of war.

The great task of the new Congress is bound to be readjustment of the old order to the new, reorganization of the great forces of industry and transportation, reconstruction of the multifarious elements that constitute the basis of the living, the happiness and the liberties of the people.

Which of the two great parties is the better equipped to solve these mighty problems intelligently and justly? We are unable to see how a shadow of doubt can blur any thoughtful mind.

MR. SHAW'S CIRCULAR

Why is it that a man holding a responsible place in the community like Mr. William Shaw, should lend his name to such a circular as that just issued against Senator Weeks? Of course the answer is Mr. Weeks' vote against the prohibition amendment, but even that doesn't justify such misstatements as are made about the Shipping Bill, the War Power Bill, the Soldiers and Sailors Insurance Bill, or worse than all, the approval of David I. Walsh.

But oh, these one-track minds! Why not credit Senator Weeks with a thousand votes that are universally approved? It should not be overlooked that the same group of men back of this move to "defeat Weeks" were just as active to "defeat Lodge" three years ago.—Think of this before you vote!

Andover Men Called to Georgetown

Judging by previous calls to which Andover has had to respond by furnishing her quota of men, she will probably have to send about sixty draftees on November 11. This is the largest number called since the beginning of the war and means that from Division 21 there will go about 185 men.

Tuesday Dr. Look examined the men who had been summoned to Georgetown and tomorrow the more will go to receive their physical examinations.

The questionnaires are coming in every day now and if anyone receives a second one he should return it to Georgetown with a letter explaining he has already filled out one. There was some confusion in the list of names, due to the delay caused by the epidemic, and several men have received a second questionnaire after filling out a first.

WAR WORK CAMPAIGN

(Continued from page 1)

November 10, when the principal speaker will be Rev. John T. Ullom, a Y.M.C.A. worker, acting chaplain, and wounded inmate of hospital, who has just returned from a year in France.

During the week of November 11-18 the Nation is to raise \$170,500,000 for the seven war work societies, the best known of which are the Y.M.C.A., the Y.W.C.A., the Knights of Columbus, the Library Association, the Salvation Army. The Red Cross is not listed among them. Its work is for the sick, wounded, and refugees. The money to be raised in the November drive is for the well—to keep the fighters fit. This aim does not rouse pity and compassion as the aim of the Red Cross does, but it ought to rouse a sympathy that is just as intelligent. What do men need amid the terrific nervous strain of the war? What they need is what the seven societies supply:

1. The little general supply store.
2. Amusements.
3. Organized athletics.
4. Writing and reading rooms.
5. Hotels, for both enlisted men and officers when on leave.
6. Opportunities for worship.
7. And for education.
8. And for banking.
9. Huts for nurses.
10. Hostess houses.
11. Club work for girls in government employ.

And all these things are for tens of thousands of young men and women. Helping them in these ways, we are doing for them 3000 miles away the very things we would want to do for them if we could get to them. Help!

FRANK R. SHIPMAN

Give! Give! Give!

This is the Campaign Slogan of the United War Work Drive which is to take place on Monday, November the 11th to 18th.

It seems needless to call to the attention of our patriotic citizens the importance of this campaign and the necessity of their preparing themselves to meet the situation with the same spirit of sacrifice as displayed on former occasions.

GIVE! GIVE! GIVE! not only your money, but your time and energy.

offer your services to the local committee whether they accept them or not, show a disposition to GIVE and work for our brave boys whose blue stars stand out so proudly on the red-bordered flag that adorns our town hall.

H. A. S. READ,
President Lawrence Y.M.C.A.

Forward for the Great War Work Drive

Once again the call has sounded, and once again we answer "Ready". Ready and proud and happy to exert our energies for the great patriotic purpose of raising funds for the welfare work for our soldiers and sailors.

What greater privilege can be ours, here at home, than to feel that we are, in some measure, responsible for the comfort of a brother in the service? What greater joy than to know that we are helping to provide service for our boys, from the time of their entering the training camp, along the whole wearisome journey on train and steamship, into strange lands and unaccustomed dangers, and up to the very front-line trenches. And even here the service does not cease, for it must follow some to the hospital and perhaps to the prison camp.

The fate of the world is in the balance now. "Humanity with all its fears, with all the hopes of future years" is looking to America today, and we, who are not called upon to do the actual fighting, will work together unselfishly, and keeping constantly before us the immortal words of the late Captain Leahy, we will make the order "Forward" for the great War Work Campaign.

Soldiers Are Clamoring for Books

The American Library Association is the agent appointed by the government to provide and distribute books and magazines to soldiers and sailors everywhere in service, from camps at home to trenches on the firing line. Very many books have already been given for such use, the Memorial Hall Library alone, receiving, packing and shipping to distributing centers over 1500 volumes contributed by the town. But money is urgently needed, to run the camp libraries, to provide transportation of travelling libraries, to purchase the

educational and technical books for which the men are clamoring. The Library Association is therefore to share in the War Fund Campaign. Let everyone who himself values a book, remember this while deciding how much he can give, and add a few dollars for this purpose. New books too, are always wanted and may be left at any time at the public library.

Victory Boys and Victory Girls

"A Million Boys behind a Million Fighters" and "Every Girl Pulling for Victory" are the slogans for the "earn and give" division of the United War Work Campaign, which takes place November 11-18.

Victory Boys' and Victory Girls' subscriptions and payments will be an integral part of the general quota of the town. This division is to give the young people between ten and twenty years of age a special opportunity to enroll as helpers in this great campaign. It is expected that subscriptions will be earned by the subscribers. Buttons and window cards will be given when pledges are made and certificate receipts when payments are completed. Payments may be made December 2, January 15, and March 1. The subscription unit will be five dollars; some will pledge more and some less. The young people of Andover have always been patriotic and have done as well and, in many cases, much better than the young people of other towns in war work. This campaign should be no exception. The Victory Boys and Victory Girls, Earn and Give Division, is a splendid opportunity for the young people to assist in this great movement. Some time during the week of November 11 to 18 every young person in town will be given an opportunity to make his pledge. If possible, make your pledge with this division. The Andover young people should go "Over the Top".

H. C. SANBORN, Chairman
Victory Boys and Victory Girls

First Meeting of November Club

The November Club will hold its first meeting of the season on Monday, November 4. This meeting is to be in charge of a committee of honorary members and will be followed by afternoon tea.

A Delightful Hallowe'en Party

Mrs. Frank Valpey at her attractive bungalow on Elm street entertained the Maple Avenue Whist Club and a few other friends at a Hallowe'en Party on Wednesday evening.

As the guests made their appearance and wended their way by the aid of their jack-o'-lanterns to the front door, they were met by a witch who told them that, in order to effect an entrance here, you must pass around to the side door. When they reached this goal a ghost appeared who aided them around in the dark to the cellar door and led them into the cellar. If they ran into an obstacle, which they often did, they were liberated by a flashlight which the guiding ghost had concealed.

Finally, they were led up the stairway and had to give three distinct raps on the door. This door was opened by another ghost, who gave them a cold shake of the hand and showed them to the dressing-room. The guests were all in costume and were also completely disguised that when Mrs. Perry, Mrs. Warden and Miss Hardy, who were appointed as judges, had to decide which one should receive the prize it took some time as all were so good. Miss Annie Wakefield was finally awarded the prize as her costume seemed to be the most appropriate for the occasion.

All kinds of Hallowe'en stunts were done. They did all kinds of Hallowe'en stunts, sang, played the piano and hunted for gingerbread, and then went to the dining-room where a most gorgeously decorated and most bountifully laden table awaited them. Large yellow chrysanthemums, bouncing red apples, and favors for Hallowe'en were the decorations, while sandwiches of every description, cider, gingerbread, squash pie and coffee were the good things they had to eat.

Those who enjoyed this jolly party were: Mrs. B. W. Cody of Lawrence, Mrs. Harry M. Eames, Mrs. Andrew McTernan, Mrs. Frank Valpey, Mrs. Frank Cole, Mrs. Charles Warden, Mrs. E. E. Perry, Misses Florence and Annie Wakefield, Misses May and Elsie Holt, Miss Mary Caldwell, Miss Louise Hardy, Miss Alice McTernan, Miss Jennie Clark, and Miss Ella Holt.

VOTE FOR
CALVIN COOLIDGE

FOR
GOVERNOR

Because
As Mayor of Northampton
As President of the Senate
As Lieut.-Governor of Massachusetts

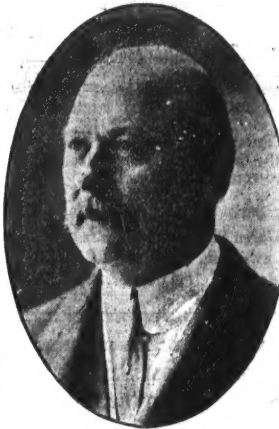

He has ALWAYS been the loyal and impartial representative of ALL the people.

BECAUSE—Everyone trusts Calvin Coolidge. Ask old men and young men—ask any Republican, ask any Democrat. Their trust is built on experience.

BECAUSE—Calvin Coolidge is independent and open minded, influenced only by evidence so that both radicals and conservatives accept him as their leader, they know he has his feet on the ground. He is a man of vision—not a visionary.

BECAUSE—No man in the whole history of Massachusetts has better understood the vast business of the Commonwealth. Ask anyone who has in his care some institution, or some business of the state, to whom he looks for advice and intelligent help, ten to one he will say CALVIN COOLIDGE.

Calvin Coolidge will be elected Governor of the Commonwealth, and you can rely on him to represent your best interests whether you vote for him or not. BUT it will be a great source of satisfaction to you in the future as you watch his conduct of the duties of the Governorship to be able to say to yourself—I helped to make CALVIN COOLIDGE Governor.

VOTE FOR
JOHN W. WEEKS

FOR
U. S. SENATOR

Because
As Mayor of Newton
As Representative in Congress
As United States Senator

He has commanded the confidence of his constituents and the admiration of the leaders of the country.

SENATOR THOMAS S. MARTIN, leader of the Democratic majority of the Senate, says of Senator Weeks:

"His personal and official integrity are beyond reproach, and I know nothing could be done that I would not do in vindicating him from any attack that might be made upon his personal or official integrity. I do not believe there is a man in this body who is more devoted to his official work or possesses a higher integrity, personally and officially, than Senator Weeks."

SENATOR LODGE, Republican leader of the Senate, says of Senator Weeks:

"He brings extraordinary knowledge to the settlement of the greatest questions which Congress has to deal with—our army, our navy, and our finances. To all questions relating to the navy, he brings a training and an expert knowledge which no other man in the Senate possesses because he is a graduate of Annapolis. He is a member of the great committee on military affairs. On that committee he has done remarkable work, for he brings to it all the aptitude which comes from a military training, although in another branch of the service. His position upon all questions of finance is well known. He is regarded in the Senate as an authority upon banking, loans and taxation, all subjects most momentous at the present time. More than this, he has the confidence of every man in the Senate on both sides, Republican and Democratic; a confidence which is born of a recognition of his courage, his character and his patriotism."

COLONEL ROOSEVELT says of Senator Weeks:

"As for Senator Weeks, not merely the regard of Massachusetts for her own reputation, but her high interest in the honor and welfare of the nation, will insure her returning him to the Senate. His abilities are such as are peculiarly necessary at this particular crisis. He has stood for the unflinching and efficient prosecution of the war until it can be ended by the unconditional surrender of Germany. His own son is a gallant fighting man in our gallant fighting army overseas. He will stand as bravely and wisely for the right kind of peace as he has stood for the right kind of war."

Accident Due to Fall

The many friends in town of Mrs. Isabella May heard with regret of the accident which befel her last Friday afternoon. In starting to descend a flight of stairs at her home on Whittier street, her foot slipped in some way, and she fell nearly the entire length. It was at first thought that some bones might be broken but the doctor's examination showed that such was not the case. She is slowly improving but her injuries, however, are likely to confine her to her bed for some little time. Mrs. May has the sympathy of a large circle of friends.

DISTINGUISHED SPEAKERS

Senator Weeks, Lieut. Governor
Coolidge and Speaker Channing
Cox Stopped off in Andover
to Address Republicans

Tuesday evening Andover had the privilege and the pleasure of hearing three distinguished Republican candidates for state elections. In front of the town house at six o'clock these three speakers addressed an enthusiastic gathering of Andover citizens. They were on their way to Republican rallies being held in nearby cities, so that the addresses were brief; but, in a short time and with a few words, they were most convincing in stating reasons for supporting the "Grand Old Party."

Frederic S. Boutwell of the Republican town committee introduced the speakers, the first of whom was Lieut. Governor, Calvin Coolidge. He emphasized the need for looking ahead to the future of the industries after the war when we should have protective tariff.

U. S. Senator, John W. Weeks spoke especially of the many ways in which the Republicans have backed the President and have worked untiringly toward the winning of the war. He mentioned one instance which shows the loyalty of the Republican people and that their great desire to be of service. Ten members of Congress resigned recently; five were Democrats, five were Republicans. Every one of the five Republicans went into active service; the five Democrats went into business which was booming because of the war.

He said that over one million Republicans are now in service and would it be fair and square to them, if when the affairs of peace are to be settled their representatives are not to be consulted? If they have no representatives in Congress, this will be the case. Such men as William H. Taft, who has one son serving gloriously abroad and Theodore Roosevelt, with three sons in service and who given one to his country, such men as these deserve to be consulted in matters of peace-settling far more than a man like Henry Ford, a noted pacifist and one who tried every method to get his son exempt from service.

Speaker Channing Cox, who spoke last, gave a stirring appeal to vote for the party of Roosevelt, "which," as he said, "would not be likely to bring much joy to the Kaiser." He reminded the people that the platform of this party is "U. S. which stands for United States, Uncle Sam, and Unconditional Surrender."

Clergy Opposed to Hearst-Walker et al Initiative and Referendum

Leaders among the clergy of all denominations and active church workers all over the State and especially in Essex County are busily engaged in an effort to defeat the Hearst-Walker Initiative and Referendum bill which will be the first of nineteen proposed amendments to the constitution of Massachusetts to appear on the ballot at the State election on Tuesday, November 5.

A strong movement is under way to have the voters kill all of the proposed amendments submitted as a result of the recent session of the "Con Con". This movement was started by a veteran newspaper man, Raymond L. Bridgman, for forty-one years a close observer of the workings of the Massachusetts Legislature, as an occupant of an official seat in the press gallery.

For several years there has been in Massachusetts an agitation by a considerable number of persons for Sunday baseball, a law for finishing boxing bouts or prize-fights, less rigid liquor laws, more easy divorce laws, repeal or liberalization of the Sunday closing laws so as to permit all kinds of attractions on Sundays at beaches and similar resorts and for other changes of a like nature, all of which have been turned down every year by the Legislature.

An examination of the Initiative and Referendum schemes in some of the states where it is in use shows that in 1907 the Legislature of South Dakota passed a law to do away with the scandal caused by persons from all over the country living in that state for a few months and then getting an easy divorce. Speaking of the case Governor Norbeck of that state says: "The good name of our state had long suffered from the scandal of this 'Divorce Mill'." The law passed by the Legislature at the earnest solicitation of church workers was held up for two years by the Initiative and Referendum process. The opposition came from those deriving revenue from the unsavory divorce business. A measure passed by the Legislature in 1912 to regulate the liquor traffic was held up and finally strangled through the use of the Initiative and Referendum.

One of the officials of the State of Oregon says, "In 1916 by the Initiative and Referendum process the Sunday closing law of Oregon was repealed by a small majority. The race track, amusement resorts, boxing and liquor interests are credited with financing the pre-election campaign. In 1915 the city of Portland, Oregon, Sunday closing ordinance was repealed by the use of the Initiative and Referendum financed through the efforts of the same interests. Only 33,799 voters expressing an opinion on the measure, so adversely was the title drawn and the real purpose of the scheme carefully camouflaged."

In California in 1914 as a result of the Initiative and Referendum process the Sunday rest law passed by the Legislature was killed, as were several prohibition laws and laws regulating the liquor traffic. The same thing happened again in 1916.

TWO ARMIES FIGHTING

We Are the Fighting Army and
Must Give to the United War
Work Campaign

"As our fighters have given up all to make the world safe for us, so should we give to the limit to help them win the war."

"In his little book, 'Out to Win', which every American ought to read, Coningsby Dawson makes this statement:

"In all belligerent countries there are two armies fighting—the military and the civilian. Either can let the other down. If the civilian army loses its morale, its vision, its usefulness, it surely betrays its soldiers as if it joined forces with the Huns."

"As members of the great civilian army of the United States we are asked to show our loyalty by giving to the United War Work Campaign. What we do will be known to our boys over there; what we give will either hearten or discourage them."

"Let us give, therefore, as nobly as they have fought. They have offered all; we must offer what we can. Victory already is in sight. We must help to make that victory complete."—By Rev. Paul Revere Frothingham

MR. FREEMAN IN SERVICE

History Instructor at Phillips to Go
with Red Cross to France

For twenty-seven years Archibald Freeman has been the efficient head of the History Department at Phillips Academy, and last week he received his appointment to serve with the Red Cross overseas. He had volunteered for this work some time ago and will have a year's leave of absence from the school.

After being a vital influence for so many years at Phillips Academy, Mr. Freeman has won a place for himself with both faculty and students which will be difficult to fill. However, they are fortunate in having had him here for the opening weeks of school so that the work is well established under Lawrence V. Roth, who has been the assistant instructor in history and who will now have charge of that department in Mr. Freeman's absence.

Mr. Freeman left last week for New York City where he is awaiting his orders for sailing. He has the best wishes from many friends for his success in this Red Cross service.

Epidemic Cases Average the Same

The number of cases of influenza and pneumonia which are being reported daily to the Andover Board of Health average the same as last week. One day there were thirteen cases, the next, they dropped to two or three; and so they fluctuate.

The opening of the churches, public schools, library and Colonial theatre has not made any material difference in the spreading of the disease. Utmost care has been taken by everyone in authority to prevent the return to school of any who have been exposed to sickness, with the result that the health condition in the public schools is very good.

Undoubtedly there will continue to be cases of influenza throughout the winter and each person must look out for himself, as an individual, in order to prevent a repetition of the epidemic in this part of the country.
